Perfect Location – NYC

ESTATES | ON THE MARKET

Perfect Location - NYC

This beautiful and modern 3-bedroom apartment, with its prime location on the Upper East Side just one block from the subway and steps away from Central Park, is a truly unique find. The spacious foyer opens into a hallway of two custom-built closets, a completely refurbished kitchen with GE Monogram stainless steel appliances, marble counters/ flooring, and an open living and dining area with wall-to-wall windows. Two pocket doors separate the large office/3rd bedroom from the living space and its own entry hallway. There is also the option of sectioning off an additional area of the living space to create a 4th room to be comfortably used as a bedroom, home office, or play space with plenty of room to spare.

The master bedroom features an incredible custom walk-in closet, a private terrace with beautiful views of the Upper East Side from the 12th floor, and a bathroom equipped with sliding glass shower doors and slab marble. The second bedroom features another large walk-in closet, a second private terrace, and its own fully-equipped, marble-tiled bathroom. A third bathroom is located in the hallway leading off from the converted 3rd bedroom, as well as a vented washer-dryer. The entire apartment has gorgeous dark wood flooring and floor-to-ceiling doorways.

The building itself is outfitted with a doorman, concierge, outdoor deck, gym, indoor pool, lounge, and playroom. Residents have the opportunity to rent out a private room for parties and other gatherings. The building's nearby proximity to dozens of restaurants, shops, museums, and mass transit make it the ideal Upper East Side home.

List price: \$2,995,000
